It is also a question whether the entire cost of quarters for medical Subordinates should be borne by the State funds or the Distt & Munl Boards concerned may be called upon to

Sir,

In forwarding the accompanying copy of remarks made by the Private Secretary to His Highness the Maharaja during His Highness' inspection of the Dispensary at Mala-valli, I have the honor to state that the absence of quar-ters not only in some places inflicts the greatest hard-ships on Medical Subordinates as houses are unobtainable, but that it seriously affects the administration and may do the popularity of Medical Institutions and result in -- grave abuses.

2. In my long and now very varied experience of Me-dical Institutions ~~outside~~ all over the Indian Empire, it is the invariable custom to provide quarters for Medical Subordi-nates in charge of Dispensaries and that it is a pressing need here.

3. I request early and serious consideration of the subject, even if a beginning were made where most urgently

Remarks made by the private Secretary to His Highness the Maharaja of Mysore on 12-8-1907.

His Highness visited the Dispensary this after-noon. The officer in charge is Mr. M.Vijiarangam Naidu 1st grade Hospital Assistant. The building is 18 years old, has no wards and the rooms are small and inconevient. The dispensary was clean and well kept but the two back rooms want whitewashing and doing up. The locks of the poison cup-board are out of order and appear to have been so for a long time. The instruments are clean and well kept. The Hospital Assistant represents the difficulties to which he and other officers in his position particularly non-brahmins are put for want of proper quarters. They have to get what accommodation they can in the towns fre-quently of a most miserable description. It is obviously in the interests of efficiency that they should be provided with quarters where their work lies and His Highness de-sires that the question may be considered.

Average attendance for July 46·06. The attend-ance at the dispensary and the demand for the Midwife's services are both affected by the existence of the American Mission Dispensary, which is in charge of a Lady Doctor.

Remarks made by the Private Secretary to H H. the Maha -raja of Mysore on 17-8-1907

His Highness the Maharaja visited the Dispensary on the 16th instant. The building is suitable and admir--ably kept. Every thing was in first class order & most creditable to the officer in charge Mr. Lakshmana Pillay. There are two inpatient wards which are however rarely oc--cupied. They are nice airy rooms but the rough stone --floors are not quite in accordance with modern ideas. Aver -age attendance last month 55, current month 58. The Mid -wife, who has been here some ~~months~~ years, had 149 cases last year and 69 cases this year up to date, a very good record.

The Hospital Assistant suffers from the usual difficulty for want of proper quarters.

His Highness the Maharaja visited the dispensary this morning, average attendance for 1906, 78·82 For last June and July the numbers are 103.03 and 127.51, which -- seems to show that the Lady Apotheeary Hospital Assistants services are appreciated. Every thing is clean and in or-
-der. There are two wards but they are never used. Funds appear to be the difficulty. The matter is now under cor
-respondence. The flooring is in an unsatisfactory con-
-dition. Midwifery cases treated in 1905-06, 65, 1906-07, 77, this year up to date eleven. No quarters are pro
-vided though they are even more necessary than male Hos-

Sir,

I have the honor to enclose a list of 16 places where <u>both</u> quarters for both Hospital Assistants and Midwives should be required. I have taken two from each District - the most urgent as I think, but it might be better to take two adjoining dispensaries in each District, so that the work could be more readily supervised & cost of transit for material etc be thereby somewhat reduced.

I have the honor to be,

Sir

You are aware that Hospl Assistants and midwives attached to Munl. & D. dispensaries are in many cases now put to considerable inconvenience for want of suitable house accommodation for them at the stations to which they are posted or transferred from time to time in the interests of the Public Service. This inconvenience is found in several ways to impair their efficiency. In some places these

2) In these circum

3). The Senior Surgeon is preparing a programme of construction, selecting places where quarters are required in the order of their urgency. The places in your District selected for first attention are named in the margin and it may be advisable to make a small change so that the places selected at a time may be two adjoining places in view of the reduction in the cost of transit of materials and of the facility in supervision which simultaneous construction at such ~~three~~ Contiguous places would secure.

4). I am to ask for your views in the matter and to request that the Dist. & Munl. Boards concerned may be moved to contribute their usual quota of the cost at a very early date.

5). A very early reply is requested so as to enable the works being taken on hand as early as possible and completed during the current official year, necessary provision being
